Design

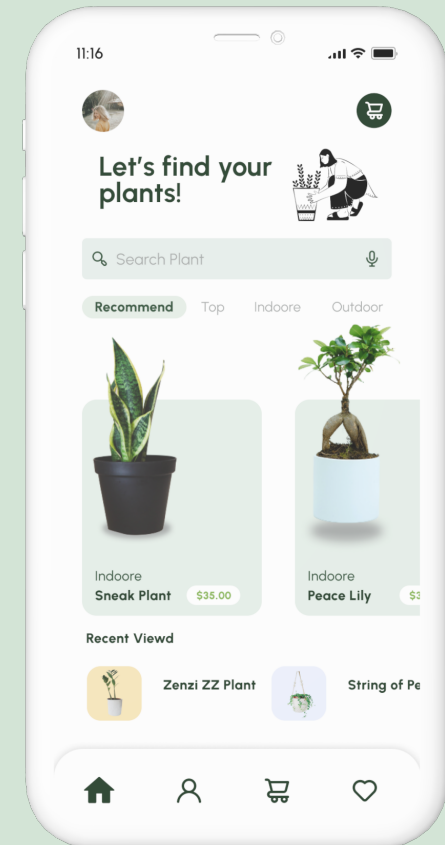

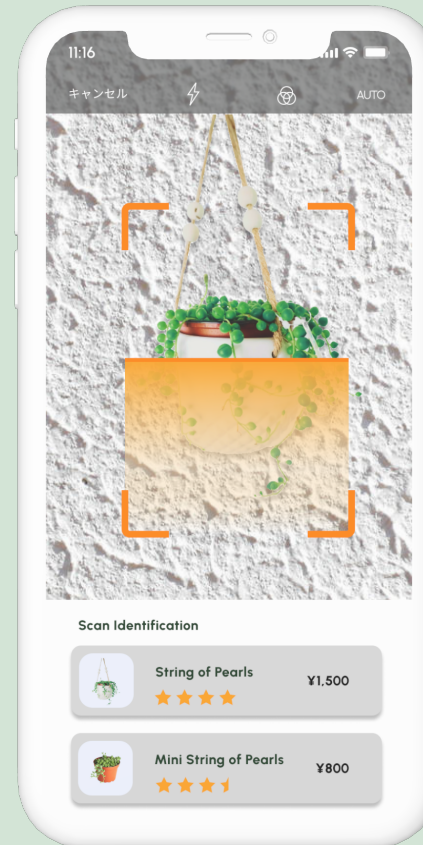

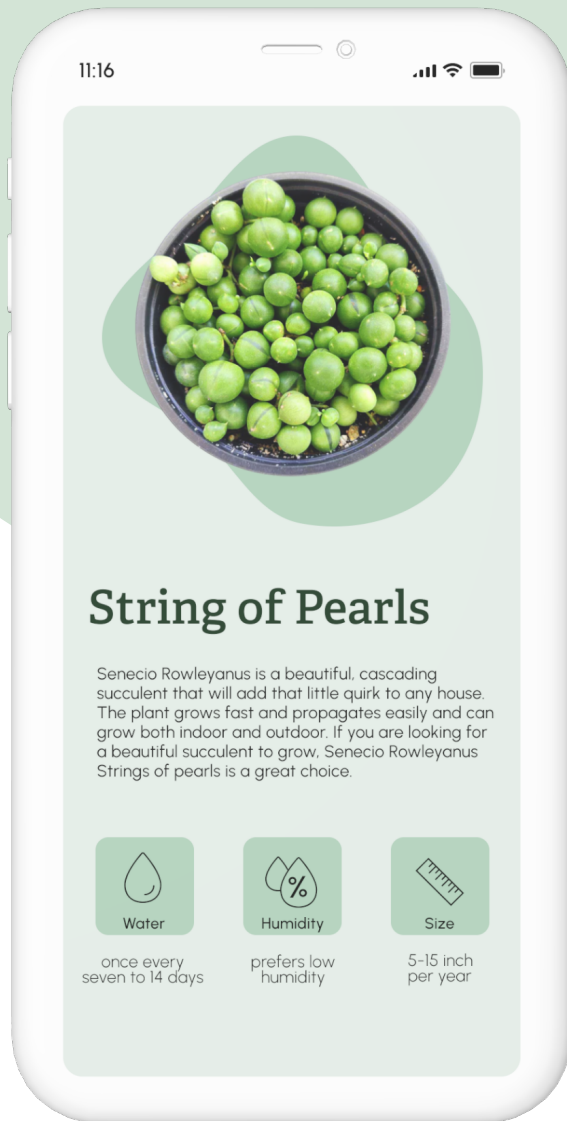

Signup / login

A user can first sign up on plant dectionally&delivery app. If the user is already registered, user can enter their data. Also use the login using email or social media account.

Search option

In addition to text search, users can use the camera function to scan search. The scan results will predict what plant it is and display candidates.

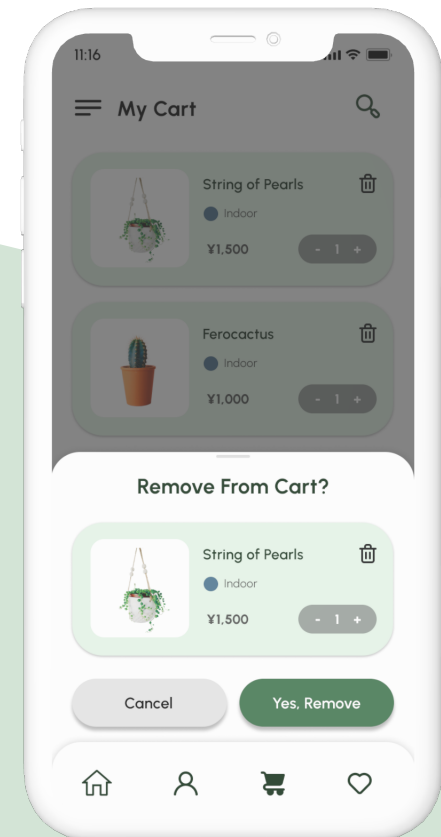

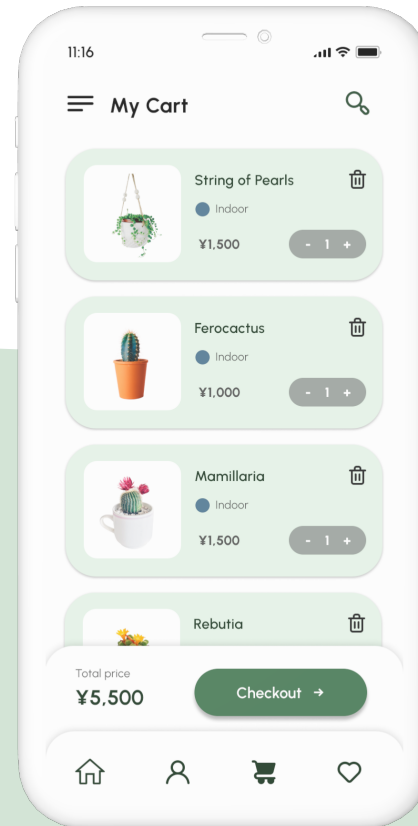

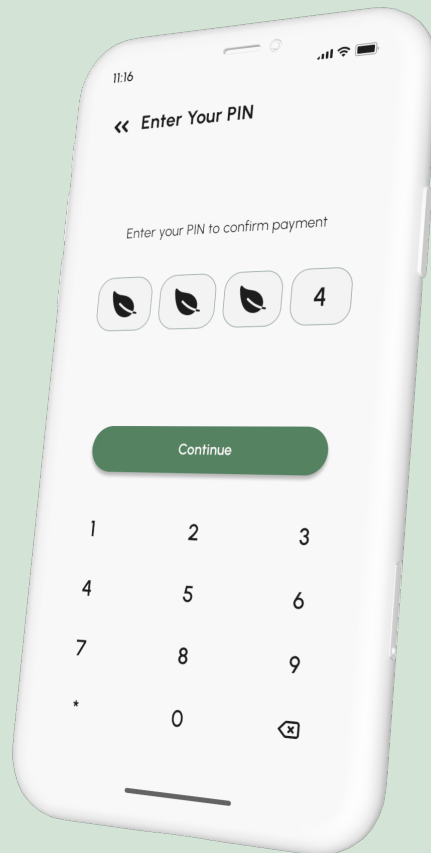

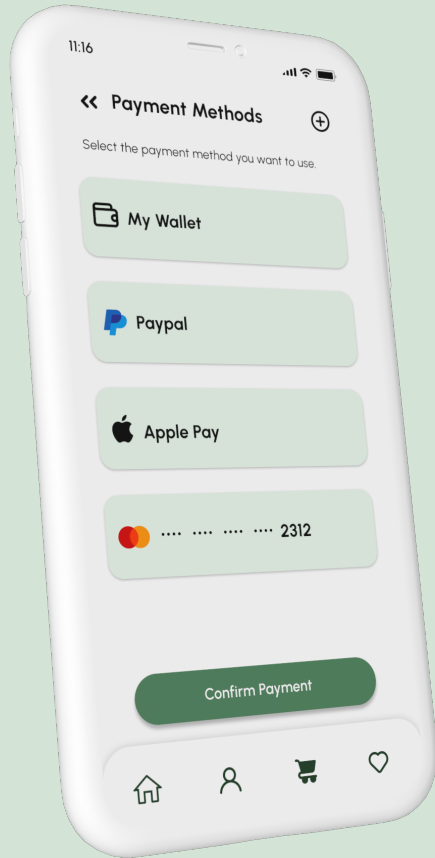

Plant details

Users can learn about the details of the plant. Types, care instructions, features, price, etc.

Cart

The user can add a plant to the cart list to help them in buying it any time and if user want to cancel a plant, easy to remove.

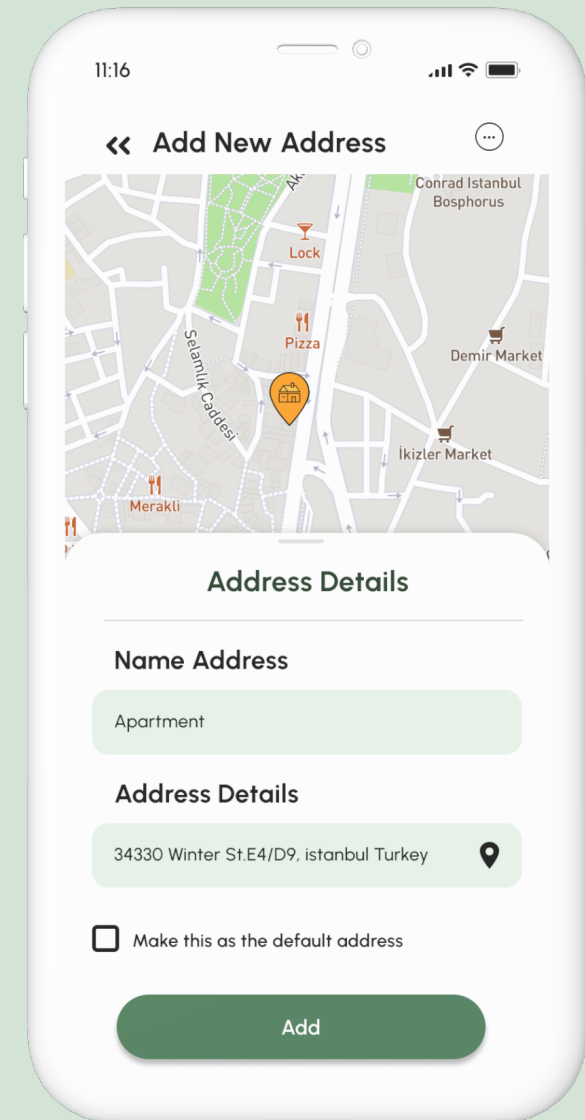

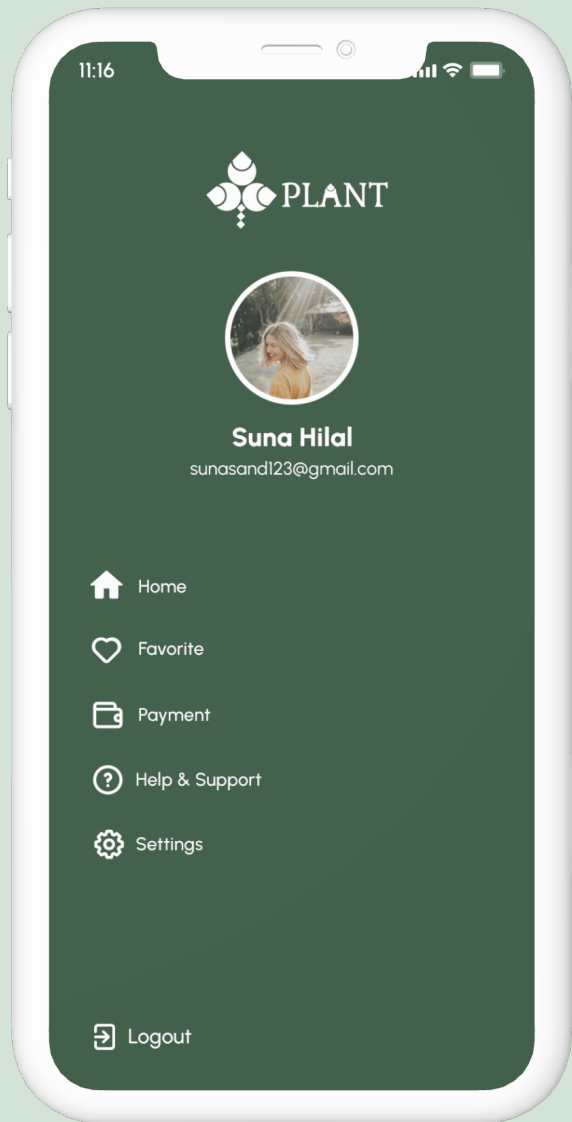

Payment integration

You can register various payment methods such as cards, net banking, mobile wallets, etc.

Add Address & Order tracking

Users can add address and track the plants they have ordered from here.

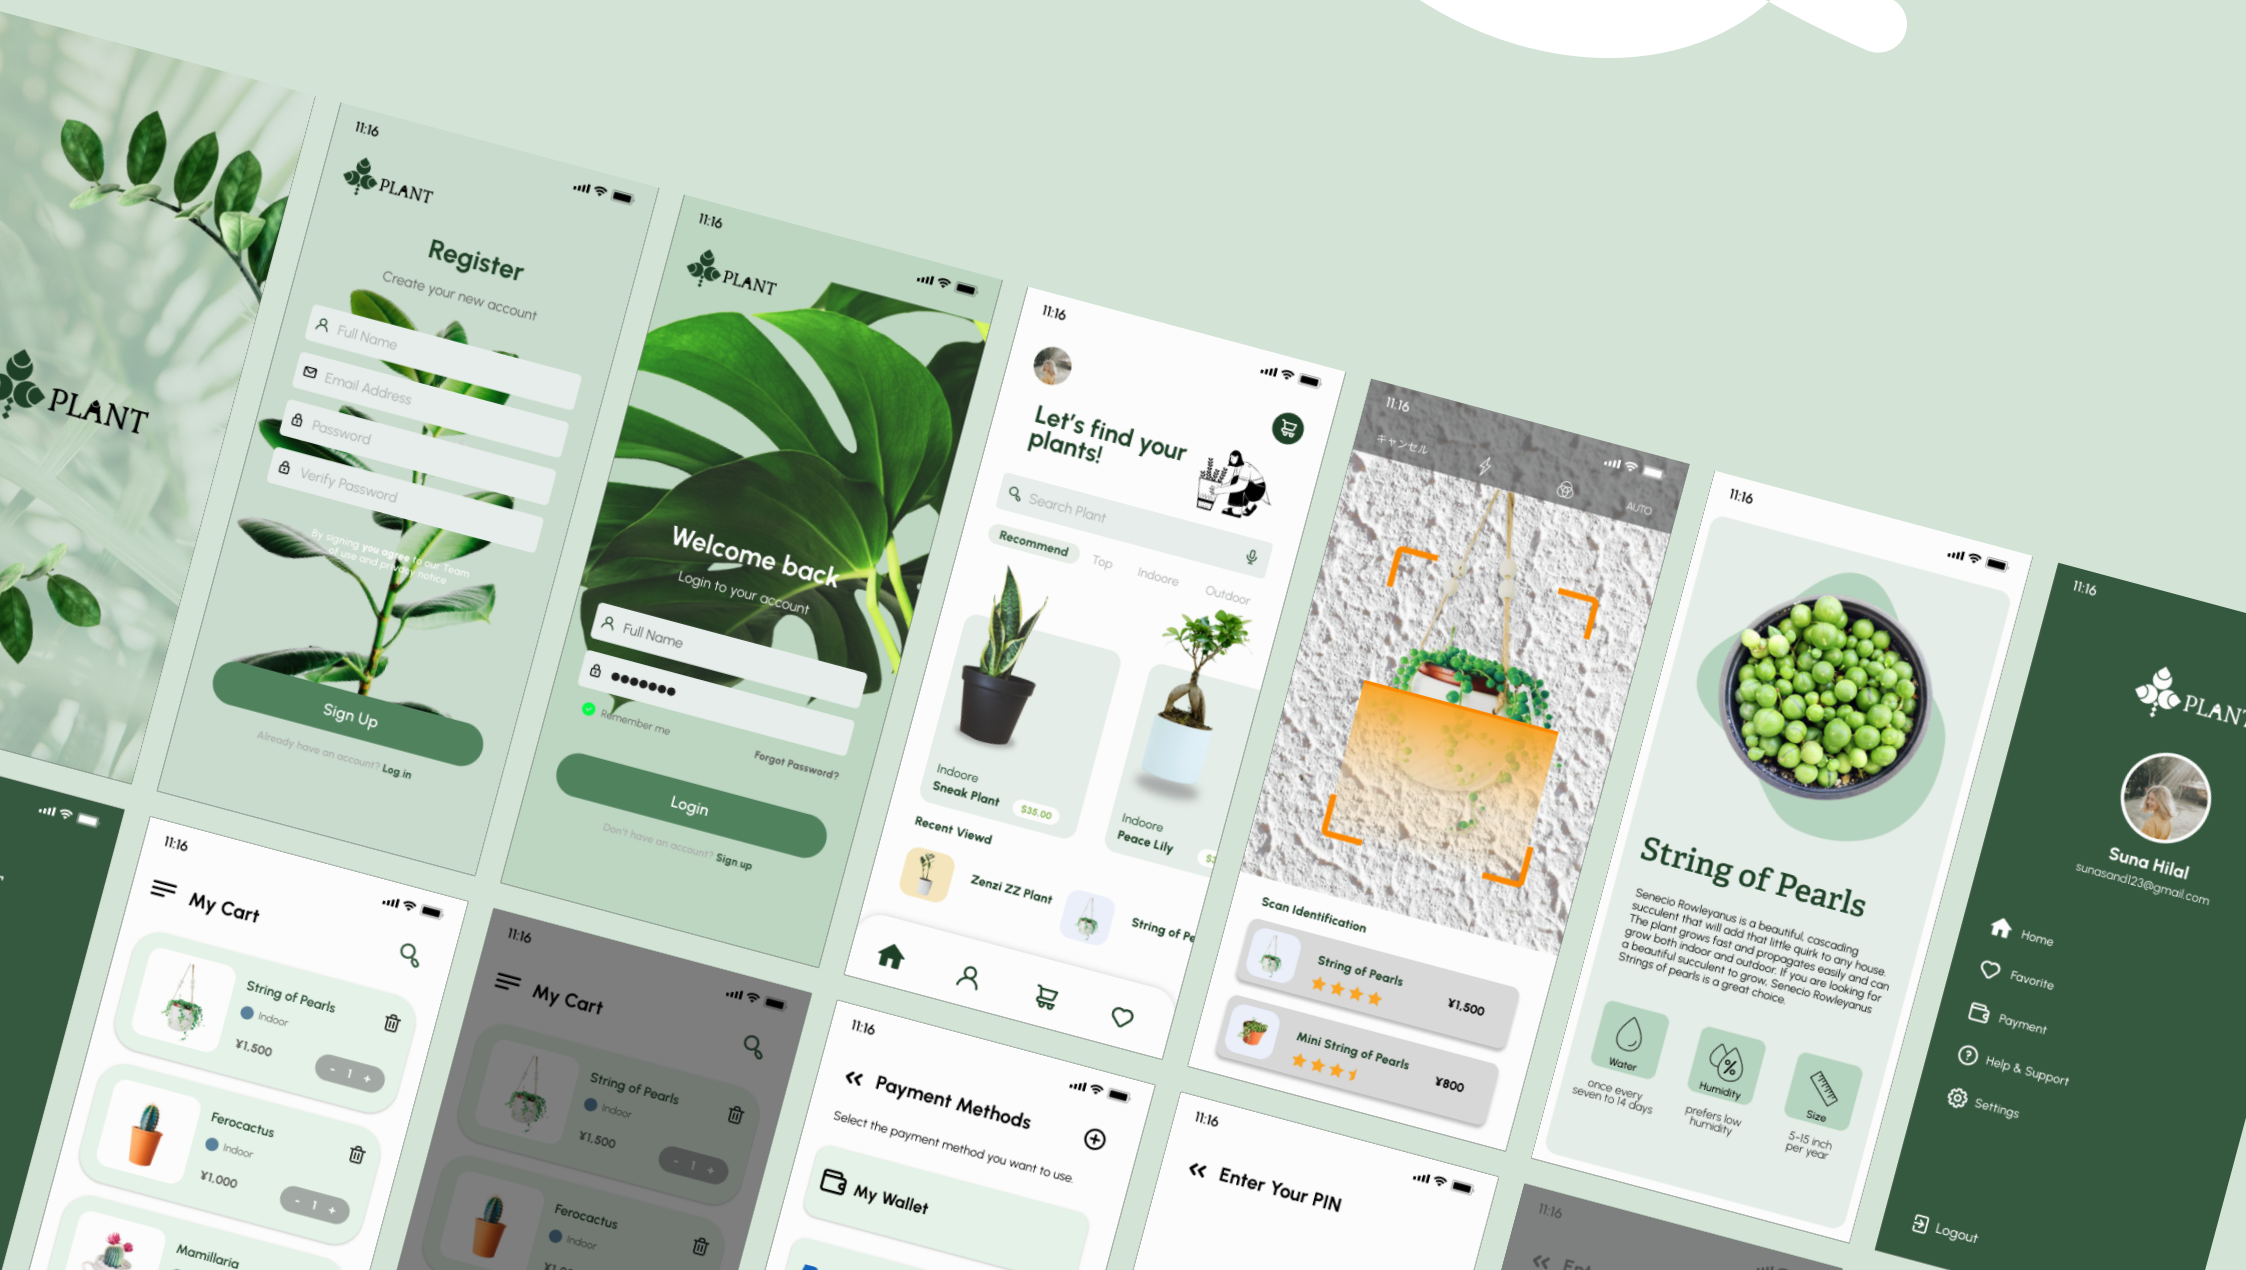

Profile

The user can change the profile settings like name, password, saved payment card details and others.
